

# SAFETY DATA SHEET

## 1. Product and Company Identification

Product identifier

OM1 Multi-Surface Cleaner

Other means of identification

Not available

Recommended use

Cleaner

Recommended restrictions

None known.

Manufacturer/importer/Supplier/Distributor information

Manufacturer

Company name

NYCO Products Co.

Address

5332 Dansher Road Countryside, IL 60525

United States

Telephone 708-579-8100 Fax 708-579-9898

E-mail

techdirector@nycoproducts.com

Emergency phone number

800-424-9300 (CHEMTREC)

### 2. Hazards Identification

Physical hazards Health hazards

Not classified. Serious eye damage/eye irritation

Category 2A Category 1

Sensitization, skin

**Environmental hazards** OSHA defined hazards

Not classified. Not classified.

Label elements

Signal word

Hazard statement

May cause an allergic skin reaction.

Causes serious eye irritation.

Precautionary statement

Prevention

Avoid breathing mist or vapor. Wash thoroughly after handling.

Contaminated work clothing must not be allowed out of the workplace.

Wear protective gloves. Wear eye/face protection.

Response

If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Specific treatment (see this label). Wash contaminated clothing before reuse.

Storage

Store away from incompatible materials.

Disposal

Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)

None known.

Supplemental information

Not applicable.

## 3. Composition/Information on Ingredients

Mixtures					
Chemical name	Common name and synonyms	CAS number	%

Provide general supportive measures and treat is Ensure that medical personnel are aware of the protect themselves. Wash contaminated clothing.  5. Fire Fighting Measures  Water fog. Foam. Dry chemical powder. Carbon Do not use water jet as an extinguisher, as this is During fire, gases hazardous to health may be for Self-contained breathing apparatus and full protection. Move containers from fire area if you can do so the standard firefighting procedures and considents to the standard firefighting procedures and considence to spill/leak. Wear appropriate protective equipment damaged containers or spilled material unless with halation of vapors or mists. Ensure adequate to significant spillages cannot be contained. For personal spillages cannot be contained. For personal protective equipments in the flow of material, if this is without risk.  Large Spills: Dike the spilled material, where this spreading. Absorb in vermiculite, dry sand or ear waterways, sewer, basements or confined areas water.  Small Spills: Wipe up with absorbent material (erremove residual contamination.  Never return spills to original containers for re-us Avoid discharge into drains, water courses or on 7. Handling and Storage  Avoid breathing mist or vapor. Avoid contact with ventilation. Wear appropriate personal protective practices. Use care in handling/storage.  Keep container tightly closed. Store away from its SDS).	4. First Aid Measures  If breathing is difficult, remove to fresh air and keep at rest in a position cor Call a physician if symptoms develop or persist. If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get m Wash contaminated clothing before reuse.  If in eyes: Rinse cautiously with water for several minutes. Remove contacteasy to do. Continue rinsing. If eye irritation persists: Get medical advice/al Rinse mouth. If ingestion of a large amount does occur, call a poison control Symptoms may include stinging, tearing, redness, swelling, and blurred visuallergic skin reaction. Dermatitis. Rash.  Provide general supportive measures and treat symptomatically.  Ensure that medical personnel are aware of the material(s) involved, and to protect themselves. Wash contaminated clothing before reuse.  5. Fire Fighting Measures  Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).  Do not use water jet as an extinguisher, as this will spread the fire.  During fire, gases hazardous to health may be formed.  Self-contained breathing apparatus and full protective clothing must be worn Move containers from fire area if you can do so without risk.  Use standard firefighting procedures and consider the hazards of other involved in the containers of spilled material unless wearing appropriate protective equipment and clothing during clean damaged containers or spilled material unless wearing appropriate protective significant spillages cannot be contained. For personal protection, see sect Stop the flow of material, if this is without risk.  Large Spills: Dike the spilled material, where this is possible. Cover with pix spreading. Absorb in vermiculite, dry sand or earth and place into container waterways, sewer, basements or confined areas. Following product recove water.  Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean sur remove residual contamination.  Never return spills to original containers for re-use. For waste disposal, see Avoid discharge into drains, water co				

Appropriate engineering

controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection

Wear appropriate chemical resistant gloves.

Other

Wear appropriate chemical resistant clothing.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

Reactivity

Do not mix with other chemicals.

Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

10. Stability and Reactivity

Chemical stability

Material is stable under normal conditions.

Conditions to avoid

Avoid temperatures exceeding the flash point. Contact with incompatible materials.

Incompatible materials

Strong oxidizing agents.

## 11. Toxicological Information

Information on likely routes of exposure

Ingestion

Expected to be a low ingestion hazard. May cause stomach distress, nausea or vomiting.

Inhalation

No adverse effects due to inhalation are expected.

Skin contact

May cause an allergic skin reaction.

Eye contact

Causes serious eye irritation.

Symptoms related to the

Causes serious eye imiation.

physical, chemical and toxicological characteristics

Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an

allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects

Acute toxicity

May cause an allergic skin reaction.

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

### 13. Disposal Considerations

Disposal instructions

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of

contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations

Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

disposal company.

Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is

emptied.

### 14. Transport Information

#### U.S. Department of Transportation (DOT)

Not regulated as dangerous goods.

### 15. Regulatory Information

US federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

2-Methyl-4-isothiazolin-3-one (CAS 2682-20-4)
